

# Wolsey Lodges Garden Trail

[Coldbeck House](#), Kirkby Stephen, Cumbria

The two acre grounds can be explored via woodland paths and garden enthusiasts will find a wealth of interesting plants and specimen trees to identify and a small bog garden on the site of the monastery fish pond! The original mill leat (though now empty) runs through the front garden.

Coldbeck visitors in spring can look forward to a wonderful show of daffodils and those visiting May/June time will be treated to the wonderful colourful blaze of the rhododendrons.
