

Wolsey Lodges Garden Trail

[Salford Farm House](#), Evesham, Worcestershire

Salford Farm House garden although small is packed with unusual herbaceous plants and Jane's aim is to have colour most of the year although she tells us this winter has been especially tough. They plant masses of tulips for the spring and have many different varieties of old fashioned roses.

Jane and Richard also have a 2 acre demonstration garden at the farm where guests and customers can see plants growing so have an idea of their growing habits size and colour at any one time. There is always an expert on site for those questions Jane can't answer.

Salford Farm House is also near the wonderful gardens of [Hidcote](#), [Sudeley](#), [Kiftsgate](#) and [Coughton](#) to name just a few.

To arrange your stay call 01386 870000 or email salfordfarmhouse@aol.com
