## South Lodge

Page No. 3

If ever a house had the 'Wow!' factor, this is it. Stunning contemporary design and décor plus fanatical attention to every luxurious detail combine to promise an unforgettable experience.

Every comfort and practicality is in place; light, airy and spacious rooms are furnished with king size beds, walk-in showers and widescreen televisions. This is complimented by tea and coffee making facilities, with homemade biscuits, fridge, iron and board, and a hairdryer in every room. Staying for business reasons? Each bedroom has a desk, a chair and free WiFi.

Fine modern art is displayed throughout the house; guest bedrooms and the breakfast room have panoramic views of the beautiful landscaped gardens. Sit outside your room on your own private patio! All the rooms are at ground level with direct access to the house and gardens, ensuring that every guest has the same opportunity to enjoy this fabulous house.

The welcome is warm, the breakfasts impressive and the meals delicious; homemade breads, preserves and own grown fruit and vegetables combine to offer a fine dining experience.

### Your Hosts

Julia and Colin have been catering for parties and events at South Lodge for several years and so felt confident moving to providing Bed and Breakfast. Colin studied Botany and Zoology whilst Julia's background is in IT and Philosophy. They share a passion for their garden, theatre and the arts. Two other important residents are two English Mastiffs, Jake and Gertie - meeting available on request!

### The Location
